**Computer Standards Collection, 1958-1978**

Correspondence, reports, publications, meeting minutes, and bulletins of standards committees relating to ALGOL, COBOL, and the International Standards Organization (ISO) subcommittee on character sets (ANSI X3L2). The ALGOL records include correspondence to the ALGOL Maintenance Subcommittee (**Association for Computing Machinery**) and information about the International Algebraic Language, XTRAN source language for FORTRAN, and the SHARE ALGOL 60 translator. The COBOL records (1960-1969) include material from CODASYL, the European Computer Manufacturer's Association, SHARE, and the American Standards Association. The ISO records (1959-1978) relate exclusively to the standards for data formats and codes and includes material from other standards organizations.

**Paul Armer Collection, 1949-1970**

The collection includes minutes of meetings, correspondence (of Armer and others) and memoranda relating to computer organizations (including the **Association for Computing Machinery**) and their committees. Published papers and rough drafts of articles on a wide range of subject related to computer uses and applications are also included. Reports and summaries of meetings and symposia cover a variety of issues relating to computers and information processing.

**Association for Computing Machinery (Washington, D.C. Chapter) Collection, 1958-1978**

Microfiche copies of the records of the Washington, D.C. chapter of the **Association for Computing Machinery**, including council minutes, chapter financial records, and the chapter's newsletters, entitled COMPUTOPICS, covering the years 1960-1978.

**United States. National Bureau of Standards. Computer Literature Collection, 1945-1961.**

*Continued by* National Bureau of Standards Computer Literature Collection, 1956-1978 held at CBI.

**Association for Computing Machinery Headquarters Records, 1947-2007**

<[purl.umn.edu/51982](http://purl.umn.edu/51982)>

Records of this educational and scientific computing society founded in 1947 as the Eastern Association for Computing Machinery, documenting its administration, operations, projects and its Special Interest Groups (SIGs) which represent virtually every major area of computing. The bulk of the records date from the 1960s through the 1990s, although some older materials, dating back to 1947, are present. Records are from the major governing bodies of the ACM including president, executive committee, council and the membership, publications, SIG and education boards. There are also records of headquarters operations including executive director, offices of administration, policy and procedures, membership, publications and SIG services. The records throughout include mainly meeting minutes and agendas, correspondence, memos, reports, budgets, policies, news releases, membership and marketing samples and project and committee files. The ACM press books for the years 1984 to 1998 are included. A smaller amount of historical and reference materials include directories, annual reports, programs, photographs, copies of incorporation records and the ACM Information Center files, a subject classified set of reference files from the 1960s.
