

ACM History Committee — Call for Applications

2023 History and Archiving Fellowship program

The ACM History Committee is pleased to announce our 2023 History and Archiving Fellowship Program, designed to support projects related to ACM's professional and educational activities and/or to ACM's rich institutional history including its organization, publications, and conferences. We encourage proposals related to ACM Heritage projects for specific organizational units, such as the Special Interest Groups (SIGs) and ACM committees.

The Association for Computing Machinery, founded in 1947, is the oldest and largest educational and scientific society dedicated to the computing profession and today has more than 100,000 members worldwide. The ACM History Committee's charter directs it to foster the collection, preservation, and interpretation of the history of the ACM and its role in the development of computing. One way we foster the development of ACM History is through our annual *History and Archiving Fellowship Program*.

The 2023 History Fellowship program will support up to **four projects** with awards of up to **\$4,000** each. Applicants need not be associated with an academic institution; applicants from academia may be of any rank, from graduate students through senior professors and researchers. Awardees, upon project completion and before May 2024, are required to submit to the ACM History Committee a written, one-page summary of their project's results.

Application Process

Application deadline: **15 February 2023 AOE**; notification of awards by 1 April 2023.

To be considered, an application **must** include:

- **Project description** (750-word limit) that addresses all of these points
- **Description of the activity:** Address how you plan to go about accomplishing the proposed project.
- **Relationship of work to ACM history**
- **Products/Outcomes** you expect to produce, e.g., journal article, book or dissertation chapter, teaching resource, museum exhibit, website, oral history, collection of artifacts or archival materials.
- **Significance:** When completed, what will be the significance of the work products?
- **Likelihood of success:** What is the likelihood of success? What are the risks?
- **Project Timeline**
- **Project Budget**
- **Applicant's brief CV** (limit 2-pages)
- **Letter of endorsement** from a scholarly or curatorial reference

Submit proposals as a single pdf-format document to fellowship@history.acm.org. Applicants are hereby notified that, if successful, their application narratives may be provided to future applicants as an example for heuristic purposes. Every effort will be made to redact information of a sensitive nature.
